**Disaster Preparedness for Healthcare Organizations within the Community Infrastructure** brings together individuals from the healthcare community who are responsible for ensuring the resiliency of healthcare services during high consequence or catastrophic events with a jurisdiction. Through a focus of preparedness processes and activities, this course provides an opportunity for participants to acquire the knowledge and skills necessary to help them ensure the sustainability of their resources, facilities, and organizations during all types of disasters.

### Topics:

- Threats to the Community
- Fundamentals of Preparedness
- Preparing the Response
- Preparing the Recovery
- Assessing Your Preparedness

### Participant Audience:

- Managers and healthcare managers/Health department personnel
- Department heads, directors, assistant directors and senior medical staff
- Regulatory personnel
- Local emergency planning directors/managers/ Emergency preparedness planning personnel
- Healthcare providers/Emergency service managers/administrators

### FEMA Student ID Requirement

Prior to course delivery, all participants are required to establish a [FEMA Student Identification Number \(SID\)](#). This can be accomplished by registering at FEMA's [website](#). Participants must complete enrollment information through the TEEX student portal [MGT341](#).

### Recommended

Participants are also encouraged to have completed AWR408, AWR419 ([teex.org](http://teex.org)), IS-100PWb, IS-200, IS-700 and IS-800 (<http://training.fema.gov/IS/NIMS.aspx>).
